

VVTT Seal Inspection Process

V – View seal & container locking mechanisms.

- Excessive damage to the seal or locking mechanisms must be reported to a supervisor before opening the container.
- Be on the lookout for different brands of seals attached together.
- Be on the lookout for loose bolts and/or hasps.

V – Verify seal number for accuracy.

- Compare seal number with shipping documents. Look out for alterations to the seal numbers.
- Be on the lookout for seal numbers that have been sanded off.

T – Tug on seal to make sure it is affixed properly.

- Seals that come apart must be reported to a supervisor before opening the container.
- Be on the lookout for broken seals.
- Be on the lookout for seals that do not lock properly.

T – Twist & Turn seal to make sure it does not unscrew.

- Twist counter-clockwise to make sure the seal does not unscrew.
